

Resource Guide

Psychiatric Evaluation/Medication Monitoring

Psychiatric Evaluation: A psychiatric evaluation to assess and diagnose a juvenile's cognitive, emotional, behavioral, trauma, and/or psychological/psychiatric conditions, including such conditions as may require medication. May recommend treatment interventions, ongoing treatment, and/or review and adjustment of psychotropic medications.

Medication Monitoring: Limited or follow-up diagnostic assessment performed by a qualified medical professional to determine behavioral/mental health problems, and may provide intervention, treatment or review and adjustment of psychotropic medications.
